

## Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

**B&E Lederöl**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified uses of the substance or mixture:**

Care components

**Uses advised against:**

No information available at present.

#### 1.3 Details of the supplier of the safety data sheet

GB

Bense & Eicke KG, Edemisser Dorfstr. 25, 37574 Einbeck, Germany  
 Phone: +49 (0) 5561 31999-0, Fax: +49 (0) 5561 31999-20  
 info@bense-eicke.de

Qualified person's e-mail address: info@chemical-check.de, k.schnurbusch@chemical-check.de Please DO NOT use for requesting Safety Data Sheets.

#### 1.4 Emergency telephone number

**Emergency information services / official advisory body:**

---

**Telephone number of the company in case of emergencies:**

+49 (0) 700 / 24 112 112 (BEC)

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

**Classification according to Regulation (EC) 1272/2008 (CLP)**

The mixture is not classified as dangerous in the terms of the Regulation (EC) 1272/2008 (CLP).

#### 2.2 Label elements

**Labeling according to Regulation (EC) 1272/2008 (CLP)**

Not applicable

#### 2.3 Other hazards

The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1907/2006.

The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1907/2006.

### REGULATION (EC) No 648/2004

n.a.

### SECTION 3: Composition/information on ingredients

#### 3.1 Substance

n.a.

#### 3.2 Mixture

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

Never pour anything into the mouth of an unconscious person!  
If the person is unconscious, place in a stable side position and consult a doctor.

#### Inhalation

Remove person from danger area.  
Supply person with fresh air and consult doctor according to symptoms.

#### Skin contact

Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water and soap, in case of irritation of the skin (flare), consult a doctor.

#### Eye contact

Remove contact lenses.  
Wash thoroughly for several minutes using copious water. Seek medical help if necessary.

#### Ingestion

Rinse the mouth thoroughly with water.  
Give copious water to drink - consult doctor immediately.  
Do not induce vomiting.  
Danger of aspiration

### 4.2 Most important symptoms and effects, both acute and delayed

If applicable delayed symptoms and effects can be found in section 11 and the absorption route in section 4.1.

The following may occur:

Irritation of the eyes

With long-term contact:

Dermatitis (skin inflammation)

Ingestion:

Danger of aspiration

In certain cases, the symptoms of poisoning may only appear after an extended period / after several hours.

### 4.3 Indication of any immediate medical attention and special treatment needed

n.c.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Adapt to the nature and extent of fire.  
Water jet spray / alcohol resistant foam / CO<sub>2</sub> / dry extinguisher

#### Unsuitable extinguishing media

High volume water jet

### 5.2 Special hazards arising from the substance or mixture

In case of fire the following can develop:

Oxides of carbon

Toxic pyrolysis products.

Fume

### 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes.  
Protective respirator with independent air supply.  
According to size of fire  
Full protection, if necessary.  
Dispose of contaminated extinction water according to official regulations.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Ensure sufficient supply of air.  
Avoid contact with eyes or skin.  
If applicable, caution - risk of slipping.

### 6.2 Environmental precautions

Page 3 of 9  
 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II  
 Revision date / version: 20.08.2015 / 0004  
 Replacing version dated / version: 13.03.2014 / 0003  
 Valid from: 20.08.2015  
 PDF print date: 20.08.2015  
 B&E Lederöl

If leakage occurs, dam up.  
 Resolve leaks if this possible without risk.  
 Prevent surface and ground-water infiltration, as well as ground penetration.  
 Prevent from entering drainage system.  
 If accidental entry into drainage system occurs, inform responsible authorities.

### 6.3 Methods and material for containment and cleaning up

Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth, sawdust) and dispose of according to Section 13.

### 6.4 Reference to other sections

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

## SECTION 7: Handling and storage

In addition to information given in this section, relevant information can also be found in section 8 and 6.1.

### 7.1 Precautions for safe handling

#### 7.1.1 General recommendations

Ensure good ventilation.  
 Avoid contact with eyes or skin.  
 Eating, drinking, smoking, as well as food-storage, is prohibited in work-room.  
 Observe directions on label and instructions for use.

#### 7.1.2 Notes on general hygiene measures at the workplace

General hygiene measures for the handling of chemicals are applicable.  
 Wash hands before breaks and at end of work.  
 Keep away from food, drink and animal feedingstuffs.  
 Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

### 7.2 Conditions for safe storage, including any incompatibilities

Store product closed and only in original packing.  
 Not to be stored in gangways or stair wells.  
 Store at room temperature.

### 7.3 Specific end use(s)

No information available at present.

## SECTION 8: Exposure controls/personal protection

### 8.1 Control parameters

| Chemical Name            | Oil mist, mineral                                                          | Content %: |
|--------------------------|----------------------------------------------------------------------------|------------|
| WEL-TWA: 5 mg/m3 (ACGIH) | WEL-STEL: 10 mg/m3 (ACGIH)                                                 | ---        |
| Monitoring procedures:   | - Draeger - Oil 10/a-P (67 28 371)<br>- Draeger - Oil Mist 1/a (67 33 031) |            |
| BMGV: ---                | Other information: ---                                                     |            |

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany). | WEL-STEL = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.  
 \*\* = The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

### 8.2 Exposure controls

#### 8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction.  
 If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn.  
 Applies only if maximum permissible exposure values are listed here.

#### 8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable.  
 Wash hands before breaks and at end of work.  
 Keep away from food, drink and animal feedingstuffs.  
 Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection:  
 With danger of contact with eyes.

Page 4 of 9  
 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II  
 Revision date / version: 20.08.2015 / 0004  
 Replacing version dated / version: 13.03.2014 / 0003  
 Valid from: 20.08.2015  
 PDF print date: 20.08.2015  
 B&E Lederöl

Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection:

Chemical resistant protective gloves (EN 374).

If applicable

Protective Neoprene® / polychloroprene gloves (EN 374).

Protective nitrile gloves (EN 374)

Protective hand cream recommended.

The breakthrough times determined in accordance with EN 374 Part 3 were not obtained under practical conditions.

The recommended maximum wearing time is 50% of breakthrough time.

Skin protection - Other:

Usual protective working garments

Respiratory protection:

Normally not necessary.

Thermal hazards:

If applicable, these are included in the individual protective measures (eye/face protection, skin protection, respiratory protection).

Additional information on hand protection - No tests have been performed.

In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents.

Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account.

Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer to manufacturer.

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use.

The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

## 8.2.3 Environmental exposure controls

No information available at present.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

|                                          |                              |
|------------------------------------------|------------------------------|
| Physical state:                          | Liquid                       |
| Colour:                                  | According to specification   |
| Odour:                                   | Characteristic               |
| Odour threshold:                         | Not determined               |
| pH-value:                                | Not determined               |
| Melting point/freezing point:            | Not determined               |
| Initial boiling point and boiling range: | Not determined               |
| Flash point:                             | Not determined               |
| Evaporation rate:                        | Not determined               |
| Flammability (solid, gas):               | Not determined               |
| Lower explosive limit:                   | Not determined               |
| Upper explosive limit:                   | Not determined               |
| Vapour pressure:                         | Not determined               |
| Vapour density (air = 1):                | Not determined               |
| Density:                                 | 0,86 g/ml                    |
| Bulk density:                            | n.a.                         |
| Solubility(ies):                         | Not determined               |
| Water solubility:                        | Not determined               |
| Partition coefficient (n-octanol/water): | Not determined               |
| Auto-ignition temperature:               | Not determined               |
| Decomposition temperature:               | Not determined               |
| Viscosity:                               | >7 mm <sup>2</sup> /s (40°C) |
| Explosive properties:                    | Product is not explosive.    |
| Oxidising properties:                    | No                           |

### 9.2 Other information

|                           |                |
|---------------------------|----------------|
| Miscibility:              | Not determined |
| Fat solubility / solvent: | Not determined |
| Conductivity:             | Not determined |
| Surface tension:          | Not determined |
| Solvents content:         | Not determined |

## SECTION 10: Stability and reactivity

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

Revision date / version: 20.08.2015 / 0004

Replacing version dated / version: 13.03.2014 / 0003

Valid from: 20.08.2015

PDF print date: 20.08.2015

B&E Lederöl

## 10.1 Reactivity

See also Subsection 10.2 to 10.6.

The product has not been tested.

## 10.2 Chemical stability

See also Subsection 10.1 to 10.6.

Stable with proper storage and handling.

## 10.3 Possibility of hazardous reactions

See also Subsection 10.1 to 10.6.

No decomposition if used as intended.

## 10.4 Conditions to avoid

See also section 7.

## 10.5 Incompatible materials

See also section 7.

Avoid contact with strong oxidizing agents.

Avoid contact with other chemicals.

## 10.6 Hazardous decomposition products

See also Subsection 10.1 to 10.5.

See also section 5.2

No decomposition when used as directed.

# SECTION 11: Toxicological information

## 11.1 Information on toxicological effects

Possibly more information on health effects, see Section 2.1 (classification).

| B&E Lederöl                                                   |          |       |      |          |             |                                                    |
|---------------------------------------------------------------|----------|-------|------|----------|-------------|----------------------------------------------------|
| Toxicity / effect                                             | Endpoint | Value | Unit | Organism | Test method | Notes                                              |
| Acute toxicity, by oral route:                                |          |       |      |          |             | n.d.a.                                             |
| Acute toxicity, by dermal route:                              |          |       |      |          |             | n.d.a.                                             |
| Acute toxicity, by inhalation:                                |          |       |      |          |             | n.d.a.                                             |
| Skin corrosion/irritation:                                    |          |       |      |          |             | n.d.a.                                             |
| Serious eye damage/irritation:                                |          |       |      |          |             | n.d.a.                                             |
| Respiratory or skin sensitisation:                            |          |       |      |          |             | n.d.a.                                             |
| Germ cell mutagenicity:                                       |          |       |      |          |             | n.d.a.                                             |
| Carcinogenicity:                                              |          |       |      |          |             | n.d.a.                                             |
| Reproductive toxicity:                                        |          |       |      |          |             | n.d.a.                                             |
| Specific target organ toxicity - single exposure (STOT-SE):   |          |       |      |          |             | n.d.a.                                             |
| Specific target organ toxicity - repeated exposure (STOT-RE): |          |       |      |          |             | n.d.a.                                             |
| Aspiration hazard:                                            |          |       |      |          |             | n.d.a.                                             |
| Symptoms:                                                     |          |       |      |          |             | n.d.a.                                             |
| Other information:                                            |          |       |      |          |             | Classification according to calculation procedure. |

# SECTION 12: Ecological information

Possibly more information on environmental effects, see Section 2.1 (classification).

| B&E Lederöl                    |          |      |       |      |          |             |        |
|--------------------------------|----------|------|-------|------|----------|-------------|--------|
| Toxicity / effect              | Endpoint | Time | Value | Unit | Organism | Test method | Notes  |
| Toxicity to fish:              |          |      |       |      |          |             | n.d.a. |
| Toxicity to daphnia:           |          |      |       |      |          |             | n.d.a. |
| Toxicity to algae:             |          |      |       |      |          |             | n.d.a. |
| Persistence and degradability: |          |      |       |      |          |             | n.d.a. |

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### For the substance / mixture / residual amounts

EC disposal code no.:

The waste codes are recommendations based on the scheduled use of this product.  
 Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances. (2014/955/EU)

07 06 08 other still bottoms and reaction residues

Recommendation:

Sewage disposal shall be discouraged.

Pay attention to local and national official regulations.

E.g. suitable incineration plant.

E.g. dispose at suitable refuse site.

#### For contaminated packing material

Pay attention to local and national official regulations.

Empty container completely.

Uncontaminated packaging can be recycled.

Dispose of packaging that cannot be cleaned in the same manner as the substance.

## SECTION 14: Transport information

### General statements

UN number: n.a.

#### Transport by road/by rail (ADR/RID)

UN proper shipping name:

Transport hazard class(es): n.a.

Packing group: n.a.

Classification code: n.a.

LQ (ADR 2015): n.a.

Environmental hazards: Not applicable

Tunnel restriction code:

#### Transport by sea (IMDG-code)

UN proper shipping name:

Transport hazard class(es): n.a.

Packing group: n.a.

Marine Pollutant: n.a.

Environmental hazards: Not applicable

#### Transport by air (IATA)

UN proper shipping name:

Transport hazard class(es): n.a.

Packing group: n.a.

Environmental hazards: Not applicable

#### Special precautions for user

Unless specified otherwise, general measures for safe transport must be followed.

#### Transport in bulk according to Annex II of MARPOL and the IBC Code

Non-dangerous material according to Transport Regulations.

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

For classification and labelling see Section 2.

Observe restrictions:

General hygiene measures for the handling of chemicals are applicable.

No

### 15.2 Chemical safety assessment

Page 7 of 9  
 Safety data sheet according to Regulation (EC) No 1907/2006, Annex II  
 Revision date / version: 20.08.2015 / 0004  
 Replacing version dated / version: 13.03.2014 / 0003  
 Valid from: 20.08.2015  
 PDF print date: 20.08.2015  
 B&E Lederöl

A chemical safety assessment is not provided for mixtures.

## SECTION 16: Other information

Revised sections:

1 - 16

### Classification and processes used to derive the classification of the mixture in accordance with the ordinance (EG) 1272/2008 (CLP):

Not applicable

The following phrases represent the posted Hazard Class and Risk Category Code (GHS/CLP) of the product and the constituents (specified in Section 2 and 3).
