**SIMPLE DRYING SOLUTIONS
FOR CALVES AND LAMBS
THAT REDUCE FEEDING TIME
AND STRESS FOR YOUR ANIMALS**

ANTAHI

ANTAHI

Part Nr. 120095

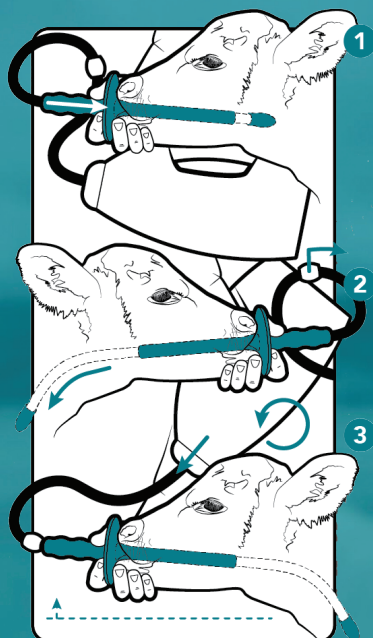

→ **2 in 1** with cap and teat that becomes a **4L feeding bottle** for **easy transition** between feeding bottle and drench.

→ Developed by a veterinarian, Trusti Tuber **significantly reduces the stress and discomfort of the calf**. The soft and flexible transparent tube is easy to swallow, the calf struggles less, allowing an **efficient and fast drenching**. The tests indicate a **reduction of 50%** of the dropping time.

→ Rigid tip that is held with one hand. Large capacity of 4 liters. Ergonomic handle and powerful valve, for **fast flow even with thick colostrum**.

→ **Locking ring** and indication of the weight of the calf for better positioning of the flexible tube (from 20 to 140 kg).

2 in 1
Feeding
bottle and
drencher

1) Place the mouthpiece so the circular guard connects comfortably with the calf's muzzle. With one hand, hold both the mouthpiece handle and under the calf's chin for easy control and guidance.

2) Advance the flexible tube through the mouthpiece so the tube is safely positioned within the oesophagus.

3) Raise the bottle to allow the liquid to flow. Ensure the head of the calf does not drop below stomach level. Ensure the tube does not come out of the oesophagus during fluid flow.

ANTAHI

Part Nr. 120096

→ **Soft muzzle attachment strap** for even easier handling without the hands.

2 in 1 with cap and teat that becomes a **4L feeding bottle** for **easy transition** between feeding bottle and drench.

→ Developed by a veterinarian, Trusti Tuber **significantly reduces the stress and discomfort of the calf**. The soft and flexible transparent tube is easy to swallow, the calf struggles less, allowing an **efficient and fast drenching**. The tests indicate a **reduction of 50%** of the dropping time.

→ Rigid tip that is held with one hand. Large capacity of 4 liters. Ergonomic handle and powerful valve, for **fast flow even with thick colostrum**.

→ **Locking ring** and indication of the weight of the calf for better positioning of the flexible tube (from 20 to 140 kg).

FLEXI TUBER is used in the same way as TRUSTI TUBER with the difference that it can be held by the calf thanks to the soft strap attachment on the muzzle. It allows you to reduce the behavioral stress of the calf by 88% compared to a more rigid feeding system.

ANTAHI

FEEDING BOTTLE WITH TEAT

Part Nr. 120097

→ A bottle specially designed for **feeding calves** with a capacity of **4 liters** for less filling.

→ A high quality teat for **reliable flow** and no leakage.

→ A wide opening for **easy filling and cleaning**.

→ An **ergonomic handle** and a very **stable wide base**.

COLOSTRUM BAGS x10

Part Nr. 120098100

→ **Colostrum bags** for calves.

→ With comfortable **handle**.

→ With **large opening** for easy filling and cleaning.

→ They facilitate **pasteurization** and **thawing** is done quickly.

→ **Large capacity** (4 liters frozen flat).

→ The bags are **transparent** and allow to see the contents of the colostrum and the decrease of the level of colostrum during the feeding.

→ These bags are **reusable** by design (durability and ease of cleaning). Attention the number of re-uses depends on the maintenance of the bag.

→ A calf is born without antibodies, which makes it vulnerable to infections. He will need **10% of his colostrum weight a few hours after birth**. For example, a calf of 40 kg will have to ingest 4 liters of colostrum in less than 4 hours.

COLOSTRUM BAGS x4 + MOUTHPIECE + TUBE Part Nr. 120095100

COLOSTRUM BAGS x10 + MOUTHPIECE + TUBE Part Nr. 120095200

STAINLESS BRUSH FOR BAGS Part Nr. 120098

→ For **easy** cleaning!

LAMB REHYDRATOR

Part Nr. 120097

→ A rehydrator specially designed for **lambs** with specific mouthpiece and **flexible and transparent tube**.

→ **Easy to use with one hand**, very useful and easy to hold.

→ An **ergonomic and stable form** allowing a **good flow** by gravity and not under pressure, safer and easy to control.

→ **240mL** capacity.
